EPILEPSY ALLIANCE AMERICA

Join a growing national network of epilepsy service providers

Epilepsy Alliance America (EAA) welcomes all organizations serving people with epilepsy and seizures to join our collaborative network as we work together to strengthen epilepsy services in local communities across the country.

EAA is a nation-wide network of community-based epilepsy organizations who are dedicated to confronting the spectrum of challenges created by seizures through the promotion of independence and quality of life for people with epilepsy and their families. The Alliance was founded in 2018 by eight leading grassroots epilepsy organizations who are unified in their mission to provide direct support to people with epilepsy, and the people who care for them.

Members of Epilepsy Alliance America have been collectively supporting people with epilepsy for decades through support services, information, education, advocacy, and public awareness. As a result, the Alliance provides services to approximately 1 million Americans living with Epilepsy.

MEMBER BENEFITS
